Executive Summary

Eclipse Marketplace is the UK's creator-first platform for Roblox digital assets. We operate on a transparent, flat-rate commission model where sellers keep **85% of every sale** with zero hidden fees — we absorb all payment processing costs.

This document outlines the commercial terms, seller benefits, competitive advantages, and onboarding process for prospective sellers.

Key Value Propositions

85% Revenue Share

Flat 15% commission on gross price. We absorb all Stripe processing fees (2.9% + 30p). No hidden deductions, no surprise charges.

100% IP Ownership

Sellers retain full intellectual property rights. No exclusivity requirements — sell on other platforms, remove products anytime, zero lock-in.

3 Payout Options

Stripe Connect (direct to bank), PayPal, or manual bank transfer. Automatic payouts processed on a rolling schedule.

Enterprise Security

AI-powered Lua script analysis, automated virus scanning, NSFW detection, and manual moderation review before any listing goes live.

Pro Seller Tier

£7.99/mo Pro+ plan: 10% commission (vs 15%), 3 asset files per product, custom store themes, scheduled drops, 90-day analytics, and £5/mo ad credits.

30-Day 0% Intro

New sellers receive an introductory period with 0% commission for the first 30 days to help them establish their store.

Competitive Comparison

The table below shows the true take-home earnings per sale across platforms. Many competitors advertise low commission rates but pass payment processing fees to the seller, resulting in lower actual earnings — especially on products under £15 where most Roblox assets are priced.

Feature	Eclipse	Typical Rival
Commission Rate	15% (flat)	10%
Processing Fees	£0 (we pay)	2.9% + 30p (you pay)
Take-home on £5 sale	£4.25	£4.06
Take-home on £10 sale	£8.50	£8.41
Take-home on £25 sale	£21.25	£21.78
Take-home on £50 sale	£42.50	£43.25
Fee Predictability	Always 15%	Varies per txn
IP Ownership	100% retained	Varies
Payout Options	3 (Stripe/PayPal/Bank)	1-2
Store Customisation	Full (Pro)	Limited

Note: On products priced under ~£15 — where the majority of Roblox assets are sold — Eclipse's all-inclusive model consistently puts more money in the seller's pocket.

Platform Features

Seller Dashboard

- Real-time sales analytics with revenue tracking
- Product management with bulk operations
- Order management and customer insights
- Store customisation with visual drag-and-drop builder
- Custom store pages (FAQ, Terms, About)

Product Listing

- Up to 4 product images with quality validation
- Rich text descriptions (10,000 character limit)
- Scheduled releases with countdown timers
- Early access launch strategies (Timed, Followers, Repeat Buyers, Private Link)
- Pay-what-you-want pricing option
- Per-purchase download limits (Pro)

Security & Trust

- Automated AI Lua script backdoor detection
- Virus scanning on all file uploads
- NSFW content detection
- IP ownership confirmation required
- Manual moderation review process
- Escrow-based payment protection

Marketing & Growth

- Discord integration for product drop announcements
- Store follower system for customer retention
- Affiliate programme for referral-based growth
- Advertising system with tiered subscription plans
- SEO-optimised product pages with IndexNow integration

Onboarding Process

1. Create Account

Sign up with email, Discord, or Roblox. Free — no payment required.

2. Submit Application

Complete the seller application form. Provide basic information about your products and experience.

3. Auto-Approval Check

If your email is verified, Discord and Roblox accounts are linked, and identity consistency is $\geq 80\%$, your application is instantly approved. Otherwise, manual review takes 24-48 hours.

4. Configure Payouts

Connect Stripe (direct bank deposits), PayPal, or request manual bank transfers. Automated payouts processed on a rolling schedule.

5. List Products

Upload your first product with images, description, and asset files. Products go through automated security scanning and moderation review.

6. Start Earning

Once approved, your product goes live. Sales are tracked in real-time through your seller dashboard.

Auto-Approval Criteria

Requirement	Status Needed
Email verification	Verified
Discord account	Linked
Roblox account	Linked
Identity consistency	$\geq 80\%$ match

Commercial Terms

Commission Structure

Standard sellers: 15% flat commission on gross sale price. Pro+ sellers (£7.99/mo): 10% flat commission. New sellers: 0% commission for the first 30 days.

Payment Processing

All Stripe fees (2.9% + 30p per transaction) are absorbed by Eclipse. Sellers receive the full post-commission amount with no deductions.

Payout Schedule

Earnings are held in escrow during the dispute window. Payouts are processed automatically via the seller's chosen method (Stripe Connect, PayPal, or manual bank transfer).

Product Pricing

Sellers set their own prices. Maximum product price: £50,000. Pay-what-you-want pricing available with configurable minimum.

Intellectual Property

Sellers retain 100% ownership of their intellectual property. No exclusivity agreements. Products can be listed on competing platforms simultaneously.

Content Policy

All products must pass automated security scanning (Lua analysis, virus scan, NSFW detection). Products failing automated checks undergo manual moderation review.

Dispute Resolution

Eclipse provides a structured dispute resolution process with escrow protection. Disputes are reviewed by the moderation team within 48 hours.
